## Summary

Highly motivated software engineer with expertise in full-stack and machine learning development, seeking a challenging role in blockchain technology. Proven ability to design, implement, and support complex distributed networks, leveraging proficiency in C++, Java, JavaScript, and data structures. Skilled in algorithmic thinking, cryptography, and peer-to-peer network architecture, with experience working on large-scale open-source projects.

## Education

**Vellore Institue of Technology**  
CGPA / Percentage: 8.8

BTech. in Computer Science Engineering

**Delhi Public School**  
CGPA / Percentage: 93.6

Senior Secondary Education (CBSE)

**Delhi Public School**  
CGPA / Percentage: 95.6

High School Education (CBSE)

## Experience

**Full Stack Developer Intern** at Just Logic Software Pvt. Ltd. (May 2025 – July 2025)  
– Developed 3+ production-ready modules (React.js, Node.js, REST APIs), deployed to live users.  
– Optimized MongoDB queries, reducing data retrieval time by 30% for 10k+ records.  
– Collaborated in a 6-member Agile team, delivering 5+ full-stack features within sprint deadlines.

## Projects

**AutismScope:** Implemented a full-stack web app for Autism Spectrum Disorder prediction, integrating a React.js frontend with a Flask backend, delivering real-time results in under 1 second.

**Nexus:** Built a student-centric platform during a 48-hour hackathon with a team of 3, helping users reconnect lost belongings and match with peers having complementary skills.

## Skills

Programming Languages: C++, Python, Java

Web Development: HTML, CSS, JavaScript, React.js, Node.js, Express.js, REST APIs

## Certifications

**Data Structures & Algorithms Mastery:** Achieved LeetCode Contest Rating of 1750 (Top 9% globally) and solved 600+ problems.
