Summary

Highly experienced Full-Stack Engineer with expertise in Machine Learning, driving innovation through efficient design and implementation of scalable blockchain-based networks. Proven track record of delivering high-performance solutions, leveraging strong programming skills in C++, Java, and JavaScript to develop complex algorithms, data structures, and peer-to-peer network architectures. Proficient in analyzing business requirements and designing blockchain technology to drive successful implementations.

Education

Vellore Institue of Technology
CGPA / Percentage: 8.8

BTech. in Computer Science Engineering

Delhi Public School
CGPA / Percentage: 93.6

Senior Secondary Education (CBSE)

Delhi Public School
CGPA / Percentage: 95.6

High School Education (CBSE)

Experience

null at Just Logic Software Pvt. Ltd.

(May 2025 – July 2025)

- Developed 3+ production-ready modules (React.js, Node.js, REST APIs), deployed to live users.
- Optimized MongoDB queries, reducing data retrieval time by 30% for 10k+ records.
- Collaborated in a 6-member Agile team, delivering 5+ full-stack features within sprint deadlines.

Projects

Nexus: Built a student-centric platform during a 48-hour hackathon with a team of 3, helping users reconnect lost belongings and match with peers having complementary skills.

Skills

Java

Certifications

Data Structures & Algorithms Mastery: Achieved LeetCode Contest Rating of 1750 (Top 9% globally) and solved 600+ problems.
