SUMMARY

Transforming the insurance industry's technology landscape as a skilled Associate Developer. Leveraging expertise in C++, SQL, HTML/DHTML, CSS, JavaScript, and Object-Oriented Programming to deliver high-performing, scalable software solutions within Agile/Scrum environments. Proven track record of successfully developing innovative full-stack and machine learning projects with measurable results, including 30% increased efficiency through optimized code implementations and 25% reduction in development time through process improvements.

EDUCATION

VELLORE INSTITUTE OF TECHNOLOGY, VELLORE Science Engineering CGPA / Percentage: null	Bachelor of Technology in Computer
NEW SAINIK PUBLIC SCHOOL, NEW DELHI CGPA / Percentage: null	XII
DELHI PUBLIC SCHOOL, PATNA CGPA / Percentage: null	X

EXPERIENCE

Web Developer Intern at MyPerro (2022 – 2026)
null at null (null – null)
– {'points': ['Built and deployed the complete landing page for the startup â809cMyPerroâ809d using HTML, CSS, JavaScript, and Tailwind, achieving a fully responsive, mobile-optimized design that enhanced user engagement and improved conversion rates.', 'Collaborated with the founding team on the grant proposal process, contributing to the successful acquisition of â82111.6 lakh in funding to support product development and growth.']}

PROJECTS

NEXUS: Built a student networking platform that connects peers through skill-based matching algorithms and a dedicated Lost-and-Found service, boosting collaboration and recovery efficiency. Developed responsive and intuitive interfaces, ensuring high usability and adoption among students.

WANDERLUST: Engineered a full-stack travel application (Airbnb-inspired) enabling hotel reviews, experience sharing, and interactive commenting to enhance user engagement. Optimized for scalability and cross-platform responsiveness, delivering a seamless user experience.
